Convenience of keyless access

No more hassle of locating forgotten keys and no more frustration of accidental lock-outs.

View access logs

Monitor when visitors enter your home for peace of mind. PIN code access logs are updated every time the master owner uses a bluetooth key.

Optional services

Airbnb hosts can sync listing calendars with their igloohome account so that PIN codes are automatically created for guests.

Compact in size and price, it comes with more than enough features to rival the big boys.

igloohome helps people manage their homes and properties through innovative technologies.

igloohome
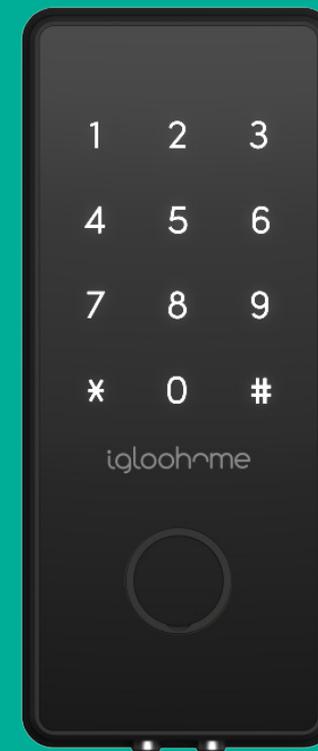

Smart Deadbolt 2S

The World's Slimmest Smart Deadbolt

Multiple entry modes

Access with permanent, duration and one-time PIN codes, bluetooth keys on smartphone, and emergency physical keys.

Mobile app-enabled

Grant access to your home when you're away, and set duration of PIN codes or bluetooth keys.

Works offline

Using cryptography and sychronisation, the igloohome Keybox does not require Wi-Fi. This means no worries about connectivity or Wi-fi hacking.

Note: Product information is accurate at point of printing

LOCK FEATURES

Security Lockout Mode

Lock stops operating for 5 minutes with 5 invalid PIN code attempts.

Decoy Security Code

Enter random digits before your password to reduce risk of intruders checking fingerprints.

Emergency Power Supply

When lock batteries are flat, an external DC9V battery can be used to jump-start the lock.

Privacy Mode

Activate this from indoors to prevent electronic entry from the outside.

Timer or Sensor Re-lock

Select the duration (in seconds) before the lock automatically locks. Sensor re-lock included.

Tamper alarm

The lock will sound if intruders attempt to pry the lock from the door.

Speedy Bluetooth Unlocking

With our latest chip enhancements, unlocking via bluetooth key is even quicker than before.
